Guides, Pathfinders and Rangers: Craft: Chopstick Place Mat

Materials:

- 40 pairs, flat wooden chopsticks (joined pairs)
- Multipurpose glue
- Burlap-type fabric, 4" x 4", per mat
- Scissors
- Ruler
- Marker for material

Instructions:

1. Take 40 pairs of chopsticks out of the package but do not pull apart
2. Lay them all side to side, wide end to narrow end, flat on your work table. The final shape is a rectangle.
3. Carefully pull only the wide ends three inches from both the top and bottom edges to create the appearance of a picket fence. As such, this "picket fence" look will be at the top and bottom of the design, with the solid mass in the center, approximately five inches wide.
4. Measure the "solid mass" in the centre of the mat and cut a piece of burlap or other sturdy material to match. Glue this fabric to cover only the solid portion (as backing), leaving the "picket fence" section visible. Let dry before using
